

Animal Research Websites

- *Includes specific websites about SeaWorld animals and more*
- *If teacher becomes aware of more websites that can be used, students will be notified of the additions and allowed to copy the new website(s) onto this handout*
- *If students find other websites that they can use to answer the research questions that is fine; they just need to be legitimate websites*

Applicable to SeaWorld Animals (Some Animal Kingdom Animals)

- <http://seaworld.org/en/Animal-Info/Animal-InfoBooks> (INFOBOOKS are your resource for wildlife information. Explore the in-depth details about animals, environments, conservation issues, and much more.)
- <http://seaworld.org/en/Animal-Info/Animal-Bytes> (Animal Bytes - Each byte is a one-page fact sheet specifically designed to help you quickly find information about some of the interesting creatures found in the animal kingdom. Most species files include coverage regarding scientific classification, basic physical traits, fun facts, and conservation/ecological value.)
- <http://seaworld.org/en/Animal-Info/Animal-Sounds> (Animal Sounds - Click on the animal images below to hear their animal sound. Click on an animal name to learn more about that animal.)

Applicable to the Many Research Questions

- www.scdiscus.org
 - username –
 - password –
- <http://www.enature.com/fieldguides/> (Online field guides – search more than 5,500 species of Plants and Animals on this website)
- <http://animals.nationalgeographic.com/animals/> (National Geographic – Animals)
- <http://animal.discovery.com/wild-animals> (Animal Planet - Wild Animals)
- <http://animaldiversity.ummz.umich.edu/site/index.html> (Animal Diversity Web - Classification of Animals, as well as other facts)
- <http://www.biology4kids.com/> Overview of Vertebrates/Invertebrates; can also view basic information of each of the groups of Vertebrates/Invertebrates)
- http://coolcosmos.ipac.caltech.edu/image_galleries/ir_zoo/coldwarm.html (Warm-blooded and Cold-blooded)
- http://coolcosmos.ipac.caltech.edu/image_galleries/ir_zoo/ (Infrared Zoo Gallery; more in-depth information about Warm-blooded and Cold-blooded than previous website about Warm-blooded and Cold-blooded)
